Anchor Fact 10: Answer Key

Answer the questions below after you watch the mini lesson video.

What major technology came 200 years before the moon landing, in 1769?

The Watt steam engine

Why did President Kennedy say we chose to do hard things, like going to the moon?

He said it is “Not because they are easy, but because they are hard.”

What famous mistake did Neil Armstrong make in his moon landing speech?

He said “One small step for man” instead of “One small step for *a* man.”

Activity idea:

Technology Timeline:

1769 Event: Invention of the Watt steam engine

1869 Event: Last spike of the Transcontinental Railroad

1969 Event: Apollo 11 Moon Landing

Cut out this sticker and attach it to your timeline.
